EDUCATION

FAR EASTERN UNIVERSITY DILIMAN Quezon City, PH
Bachelor of Information Technology, Cum Laude Aug 2022 - Sep 2026
Specialized in Web and Mobile Application
Relevant Coursework: Web Development; Mobile Development; Database Systems; Software Engineering; UI/UX Design

OUR LADY OF FATIMA UNIVERSITY Quezon City, PH
Senior High School Aug 2020 - May 2022
Science, Technology, Engineering, and Mathematics

WORK EXPERIENCE

SAN JUAN CITY DISASTER RISK REDUCTION AND MANAGEMENT DEPARTMENT San Juan, PH
IT Intern Apr 2026 – Jun 2026

- Contributed to a departmental publication as lead designer, managing layout and visual design across a large-scale print project in coordination with a cross-functional team
- Designed the UI/UX and visual branding for an internal web-based system built with Laravel, covering multiple administrative and record-keeping modules
- Supported administrative operations through inventory management, documentation, and recordkeeping processes
- Assisted in coordinating and facilitating technical and skills-based trainings for department personnel
- Provided general IT support, including hardware setup and troubleshooting

HIGHLY SUCCEED INC. Mandaluyong, PH
Web Development and Graphics Design Intern Dec 2025 - Mar 2026

- Contributed to full-stack web development using the MERN stack, with a focus on UI/UX design and React-based frontend implementation
- Designed responsive, user-friendly interfaces for multiple system modules, translating functional requirements into clean, usable layouts
- Served as UI/UX Designer across several internal projects, producing high-fidelity prototypes from concept through to development-ready design
- Delivered UI/UX design for a range of web and mobile applications in Figma, maintaining consistency and usability across projects
- Supported client-facing work by producing presentation decks and visual materials in Canva

UNIVERSITY PROJECTS

FACILITEASE 2025
Capstone Project - UI/UX Designer, Front-End Developer, and Technical Writer

- Designed and prototyped user interfaces in Figma, ensuring usability and consistency across web and mobile platforms.
- Created flowcharts, data flow diagrams, and database models using MySQL and Firebase.
- Collaborated with the project manager and team members to conceptualize features, refine workflows, and align designs with client requirements.
- Utilized GitHub for version control and VS Code/XAMPP for development and testing environments.
- Conducted research on related studies to benchmark existing solutions and validate the project's innovative approach.
- Coordinated with clients alongside the project manager to gather requirements and provide technical input during implementation and deployment.

CYPHER 2024
Technopreneurship - Graphic Designer & UI/UX Designer

- Designed UI/UX prototypes in Figma and created branding assets (logos, posters, and pubmats) in Canva.

- Contributed to conceptualizing the business idea and app services, collaborating closely with the project manager and team members.
- Developed visual materials and pitch decks to support project presentations and promotions.
- Edited the infomercial video and assisted in preparing other promotional content.

ENGINIUM 2024

Design Thinking - Researcher & Designer

- Conceptualized a web application aimed at empowering innovation and collaboration among technology and engineering communities.
- Contributed to brainstorming and ideation sessions to refine the project's purpose and visual direction.
- Designed interface concepts and digital assets using Canva, and edited the project's infomercial video to effectively communicate its core mission and functionality.

ACADEMIC AWARDS & ACHIEVEMENTS:

- Academic Scholar, FEU Diliman (S.Y. 2023–Present)
- Top Performing Student, Rank 7, BSIT-WMA (A.Y. 2024–2025)
- Top Performing Student, Rank 9, BSIT-WMA (A.Y. 2023–2024)
- Best Infomercial, Techno Fair and Pitching Competition, FEU Diliman (A.Y. 2023–2024)
- Best Poster, Techno Fair and Pitching Competition, FEU Diliman, S.Y. 2023 - 2024
- 2nd Runner Up, Design Thinking Summit, FEU Diliman, S.Y. 2023 - 2024
- With High Honors, Our Lady of Fatima University, Quezon City, S.Y 2020 - 2022

CERTIFICATIONS

- FreeCodeCamp- Python Developer Certification (2026)
- Information Technology Specialist in Python (2025)
- Information Technology Specialist in Network Security (2025)
- DevNet Associate (2025)
- CCNA: Enterprise Networking, Security, and Automation (2024)
- CCNAv7: Switching, Routing, and Wireless Essentials (2024)
- Information Technology Specialist in Networking (2024)

ORGANIZATIONAL INVOLVEMENT

- Secretary, Technology Innovation and Capstone Project (2025)
- Logistics Committee Associate, Tertiary Student Coordinating Council, FEU Diliman (S.Y. 2025–2026)
- Documentation Committee Associate, Tertiary Student Coordinating Council, FEU Diliman (S.Y. 2024–2025)
- Member, Assemblage of Programmers and Developers, FEU Diliman (2022–2025)

TECHNICAL SKILLS

Programming & Development: HTML, CSS, JavaScript, PHP, C++, Python, R, Java
Database Management: MySQL
UI/UX Design: Figma, Wireframing, Prototyping, Front-End Development
Software Tools: VS Code, XAMPP, SAP S/4HANA, Microsoft Office Suite, Canva
Design & Media: Branding, Posters, Infographics, Video Editing, Photography
Core Competencies: Creativity, Innovation, Technical Writing, Research, Collaboration, Adaptability
